

# Chhoy Sreynoch

Web Developer

## Work Experience

- September-December 2024 – Building a mobile app to create a platform that promotes Khmer food culture (Advanced Course).
  - Project : Krorya
  - Using SwiftUI, Figma, Spring boot, Git/Github
  - Using the Xcode tool to build app and manage the project
  - I am responsible for working with fetch API, designing user interfaces in Figma, and implementing code using SwiftUI.
- May-July 2024 – Building a web project with a team at KSHRD center (Basic Course).
  - Project : Assessify (Validation Website)
  - Using Next.js, UX/UI, Spring boot, Database, Git/GitHub
  - Using the VSCode tool to build the website and manage the project.
  - I work on responsibilities related to fetch API and UX/UI design. I use Figma for design and implement code using Next.js.
- November 2024-January 2025 – Building responsive e-commerce website (RUPP Assignment).
  - Project : LN-Shopping (Ecommerce Website)
  - Using React.js, Laravel, MySQL, Bootstrap, Git/GitHub, Local Server MAMP, and Postman.
  - Using the VSCode tool to build the website and manage the project.
  - I work on responsibilities involving coding based on UX/UI designs, writing MySQL queries, and integrating API endpoints using Laravel.
